

## Wild Food Plot Mixtures - 2017

### Versa Grass

24.09% Summit Timothy	24.6% Extend Orchard Grass
24.88% Boost Perennial Ryegrass	23.8% Viking Brome Grass

All grass mix preferred for permanent horse pasture. It contains brome grass, timothy, and rye grass, and combines quick establishment with good recovery time. Seeding rate 25 lbs. per acre, maintenance fertilizer 17-17-17.

### Antler King Fall/Winter/Spring

69.81% *Fall Rye*	29.06% LC6040 Peas
-------------------	--------------------

Comprised of a special variety of winter peas and a unique variety of winter rye. Grows extremely fast (can be 6" tall in only 10 days!) and stays green all fall and winter. Seeding rate 70 lbs. per acre, maintenance fertilizer 17-17-17.

### Antler King Game Changer Clover

49.9% Dixie Crimson Clover	4.8% Louisiana S1 Ladino White Clover
19.9% Wizzard Canola	2.5% Fixation Balansa Clover
19.9% Yuchi Arrowleaf Clover	

A minimum or no till perennial mix of 4 special varieties of clover and 1 variety of brassica. Tolerant to a low ph, shade, and dry, sandy soils. Ideal for logging roads and power lines. Seeding rate 10 lbs. per acre, maintenance fertilizer 6-24-24.

### Antler King Honey Hole

23.06% Sterling Rapeseed	6.59% Purple Top Turnip
16.43% AKB Rapeseed	3.29% Seven Top Turnip
16.34% Dwarf Essex Rapeseed	

A mixture of 5 unique varieties of rape and turnips. An ideal plot for the fall and winter that after the first frost will turn sweet. Seeding rate 6 lbs. per acre, maintenance fertilizer 17-17-17.

### **Antler King Lights Out**

89.10% Oats  
5.97% Canola  
3.96% Turnip

An all fall mix that is ph tolerant, fast growing, and very weather tolerant. The special varieties of Forage Oats, Turnips, and Canola will be highly sought after early in the fall and extending into winter. Seeding rate 48 lbs. per acre, maintenance fertilizer 17-17-17.

### **Antler King Mini Max**

19.61% Yuchi Arrowleaf Clover	9.86% Boost Tetraploid Per. Ryegrass
13.18% Crimson Clover	6.58% Sterling Rapeseed
13.15% AKB Alsike Clover	3.27% Crusade White Clover

A mixture of perennial and annual seeds that thrive in minimum tillage and lower pH (more acidic) soils. Ideal for logging roads, under power lines, and shady areas. Can last 3-5 years! Seeding rate 9 lbs. per acre, maintenance fertilizer 6-24-24.

### **Antler King No Sweat No Till**

59.41% Fria Annual Ryegrass	4.97% Fawn Tall Fescue
19.9% Mancan Buckwheat	4.95% Crusade White Clover
9.89% Dwarf Essex Rape	

An excellent mix for minimum or no till plots, such as logging roads, shady areas, or areas where equipment cannot be used. Contains an ideal mix of perennial and annual seeds, which have been chosen because they are shade tolerant, fast growing, ph. tolerant, and deer love them!

### **Antler King Red Zone**

Forage Peas	Early Maturity Soybean
Late Maturity Soybean	Peredovik Sunflower
Buckwheat	Peas 4010

Will mature at different periods throughout the year, offering a food plot the deer will crave during the spring, summer, fall and winter. Seeding rate 40 lbs. per acre, maintenance fertilizer 6-24-24.

### **Antler King Slam Dunk Hunt**

29.9% Forage Peas/Meadow	24.88% Canola/Wizzard
24.97% Buckwheat/Mancan	19.86% Daikon Radish/WSHY

An all-in-one attractant blended with warm and cold weather food sources. Special seed varieties will thrive in virtually any soil condition and climate. Easy to establish and quick growing. Seeding rate 14 lbs. per acre, maintenance fertilizer 17-17-17.

### **Antler King Trophy Clover Mix**

23.02% AKB Alsike Clover	6.58% Yellow Sweet Clover
16.47% Red Clover	6.59% Ladino Clover
9.88% Dwarf Essex Rape	3.29% Six Point Chicory

Hardy and long lasting perennial mix of 4 perennial varieties of clover, a unique variety of chicory, and a variety of rape seed. Can last 6+ years on a single planting! Seeding rate 7 lbs. per acre, maintenance fertilizer 6-24-24.

### **Deer Creek Autumn Buffet**

20% Hunter Forage Brassica	15% Winfred Forage Brassica
20% DCS Wildlife Brand Rape	10% Buck Brand Ladino Clover
15% Purple Top Turnip	

A great dual purpose product. The combination of fast growing brassicas and turnips provide succulent forage while establishing a perennial clover plot. Seeding rate 9 lbs. per acre, maintenance fertilizer 17-17-17.

### **Deer Creek Brassica Blend**

20% Winfred Forage Brassica	20% DCS Wildlife Brand Rape
20% Purple Top Turnip	20% Rangl Forage Brassica
20% Hunter Forage Brassica	

A mixture of brassicas to produce lush forage from mid to late fall, while turnips will sustain your plot through late fall and winter after the tops are gone. Seeding rate 7-9 lbs. per acre, maintenance fertilizer 17-7-17.

### **Deer Creek Buck & Bird**

35% Peredovic (Black) Sunflowers	10% Browntop Millet
20% Dwarf Wildlife Sorghum	10% Grain Sorghum
15% Buckwheat	10% Red Ripper Cowpeas

Provides cover for all game birds as well as other wildlife, plus food for fall and winter of the same year. Seeding rate 18-25 lbs. per acre, maintenance fertilizer 17-17-17.

### **Deer Creek Logger's Mix**

30% Tall Fescue	10% Perennial Ryegrass
30% Creeping Red Fescue	10% Annual Ryegrass
10% White Clover	10% Alsike Clover

A blend of grasses and white clover that will quickly produce cover and will grow in low-fertility, acidic or wet soils, and areas with less than ideal sunlight. Seeding rate 18-25 lbs. per acre, maintenance fertilizer 17-17-17.

### **Deer Creek Perennial Plus**

25% Buck Brand Ladino Clover	15% White Dutch Clover
25% Puna Chicory	15% New Zealand White Clover
20% DCS 990 Brand Red Clover	

Produces abundant, high-quality forage throughout the season. Performs well on sandy soils to heavy well drained areas. Seeding rate 9 lbs. per acre, maintenance fertilizer 6-24-24.

### **Deer Creek Succotash**

25% DCS Brand Winter Rye	15% Purple Top Turnip
25% Robust Barley	15% DCS Brand Wildlife Rape
20% Winfred Forage Brassica	

Deer go absolutely crazy over this fall forage and attractant. It remains green and lush, even under the snow. Not recommended for spring planting. Seeding rate 18-25 lbs. per acre, maintenance fertilizer 17-17-17.

### **Deer Creek Wildlife**

25% DCS 990 Brand Alsike Clover	10% Tetraploid Annual Ryegrass
20% DCS 990 Brand Red Clover	10% High Sugar Perennial Ryegrass
15% Big Buck Ladino Clover	5% Chicory
15% Haifa White Clover	

A balanced mix of grass, clovers and trefoil preferred by a wide range of animals and birds year round. Adapted to a variety of soil types and growing conditions. Seeding rate 9 lbs. per acre, maintenance fertilizer 6-24-24.

### **Eagle Manager's Mix RR Soybean**

55% ES1686 RR	15% ES Large Lad RR
22% ES Big Fellow RR	6% ES Whitetail Thicket RR

Blend of soybeans that include both climbing, forage types and tall varieties that can grow 3-5 ft. tall. Different maturity times to allow for optimal feeding. Seed should be covered and packed by soil. Seeding rate 1 bag per acre, maintenance fertilizer 6-24-24.

### **Field Mix Plus**

29.91% Ladino Clover	9.81% Rape Seed
----------------------	-----------------

24.88% Red Clover  
19.83% Alsike Clover

9.76% White Clover  
4.75% Chicory

Performs best in sunny, well drained areas, although it is more tolerant of wet and acidic soil than alfalfa. It is designed to attract wildlife all season long, although it will need to be mowed if planted in the spring to prevent the rape seed from going to seed and to encourage new growth. Seeding rate 10-20 lbs. per acre, maintenance fertilizer 6-24-24.

### **Point Builder Plus**

19.88% Pinnacle Ladino Clover  
19.8% Bulls Eye Turnip  
19.67% Boost Perennial Ryegrass  
14.76% Bridger Rape Seed

9.77% Sterling Rape Seed  
9.65% Puna Chicory  
4.9% Resolute Clover

Formulated to provide top quality forage all spring, summer, and fall. Will produce different types of forage at different times throughout the year. Excellent choice for plot areas along wood lines or open areas in woods. Seeding rate 15-25 lbs. per acre, maintenance fertilizer 17-17-17.

### **Trail Mix**

29.88% White Dutch Clover  
29.44% Boost Perennial Ryegrass  
19.76% Creeping Red Fescue

14.88% Birdsfoot Trefoil  
4.85% Alsike Clover

An all perennial mix of clovers and grasses. Shade tolerant and will handle wetter, more acidic soil. Its short growth habit makes it perform particularly well on logging trails and under power lines or anywhere mowing is impractical. Seeding rate 10-20 lbs. per acre, maintenance fertilizer 6-24-24.

### **Sweet Spot**

33% AberDart HSG Perennial Ryegrass\*  
33% AberAvon HSG Perennial Ryegrass\*  
11% Winter White Clover

11% Dynamite Medium Red Clover  
6% Purple Top Turnips  
6% Six Point Chicory

A perennial, high sugar grass mix. Establishes quickly, winters well, and creates a great food plot year after year. High in both protein and carbohydrate content so deer get optimum nutrition. Seeding rate 30 lbs. per acre, maintenance fertilizer 17-17-17.
